**CYLINDRICAL SPACER
SERIES 300**

- Made from nylon-6 (PA-6) or POM with glass fibre
- Colour: natural, black
- Retains its dielectric properties
- The universally used spacer for electronics, electrical systems, etc.
- Check our extensive ranges of nylon or metal screws and nuts

HEXAGONAL SPACER SERIES 302

- Made from nylon-6 (PA-6) and glass fibre compound
- Colour: black
- For use in electronic appliances
- Insulates well and has a high mechanical durability
- Check our extensive ranges of nylon or metal screws and nuts

PCB BRACKET SERIES 310

- Made from nylon-66 (PA-66)
- Colour: black
- To be used with M3 or M4 screws, available in two PCB thicknesses
- Suitable for heavy loads
- Can be removed easily
- Check our extensive ranges of nylon or metal screws and nuts

LOCKING PCB SPACER SERIES 100-0

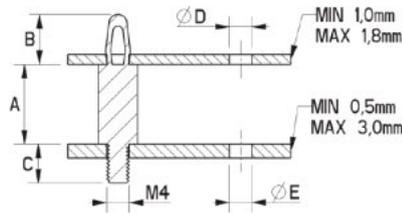

- Made from nylon-66 (PA-66)
- Colour: natural
- Easy fastening with snap fitting, no tools or screws needed
- Rapidly detachable
- Supports relatively high weights
- Also available in assortment box (group 019)

BEARINGS – FITTING INSTRUCTIONS

The Skiffy bearings are made to conform to DIN h6-H7 fitting. This means that the diameter of the hole into which the bearing is fitted is the same or larger than the stated size, and the spindle diameter is smaller than or the same as the stated bearing diameter. With this fitting, the bearing should sit firmly in the bearing housing, while there should be a little play between the bearing and spindle. After all, the spindle must be able to rotate in the bearing, but the bearing must not rotate in its housing.

In order to achieve this fit, the properties of the plastic are taken advantage of and the bearings are made slightly larger than the size stated in the catalogue. The outer diameter is larger so that it fits firmly in the housing (interference fit). The inner diameter is a little larger so that there will still be play between spindle and bearing when the nylon has absorbed water. Nylon will always absorb water, even from air. This is necessary for its proper resilience and strength, and in doing so it expands a little.

When fitting, some force will be required to press the bearing into its housing. The bearing should then sit firmly in its housing. The bearing as a whole is then compressed, so the inner diameter is smaller. Only then, **AFTER FITTING**, does the bearing have the correct size. It has an interference fit in the housing and inner bearing play is then 1% of the spindle diameter, as stated in the catalogue.

- Made from nylon-66 (PA-66)
- Colour: natural
- Suitable for DIN h6-H7 fitting
- Bearing clearance about 1 % of the shaft diameter after assembly
- Also available in assortment box 019

All prices are indicative. Check www.skiffy.com for our current prices and more information about materials and colours.

- Made from a special nylon-66 (PA-66), carbon fibre and PTFE compound
- Colour: black
- Very low friction and good heat discharge
- Maximum rotating speed 0.9 m/s
- Friction coefficient 0.11 (statal)
- Suitable for DIN h6-H7 fitting

SLIDE BEARING SERIES 008-3

- Made from nylon 6.6, glass fibre, PTFE
- Colour: anthracite
- Allround slide bearing
- Maximum rotating speed 0.9 m/s
- Friction coefficient 0.11 (statical)
- Suitable for DIN h6-H7 fitting
- Isolating

SLIDE BEARING SERIES 103

- Made from nylon-66 (PA-66)
- Colour: natural
- Perfectly suitable for soundless hinging, low R.P.M. machines etc.
- Suitable for DIN h6-H7 fitting
- After assembly bearing clearance about 1% of the shaft diameter
- Insensitive to dirt, weather influences and most chemicals

- Made from nylon-66 (PA-66) compound with carbon fibre and PTFE
- Colour: black
- Improved mechanical characteristics and reduced wear
- Maximum rotating speed 0.9 m/s
- Friction coefficient 0.11 (statical)
- Suitable for DIN h6-H7 fitting

SLIDE BEARING SERIES 103-2

- Material: Nylon 6.6, Glass fibre, PTFE
- Colour: Anthracite
- Allround slide bearing
- Maximum rotating speed 0,9 m/s
- Friction coefficient 0,11 (statical)
- Suitable for DIN h6-H7 fitting
- Isolating

PLATE BEARING SERIES 164

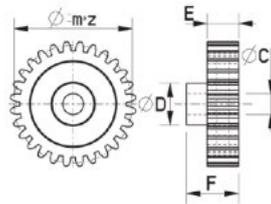

- Made from nylon-66 (PA-66)
- Colour: natural
- Perfect solution for fencing shafts or valves in steel plates
- Simply twist the bearing into the hole thanks to the compensation gap
- Minimum clearance at indicated shaft and hole dimensions 0,03 mm

DRIVE-IN PLUG SERIES 074

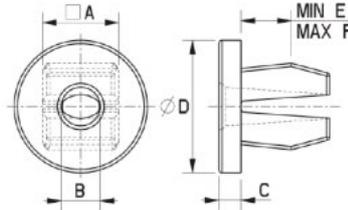

- Made from nylon-66 (PA-66)
- Colour: natural
- Strong drive-in plug for metric threads M5 and M6
- Also available in assortment box (group 019)
- Check our extensive ranges of nylon or metal screws and nuts

WASHER

SERIES 003

- Made from nylon-6 (PA-6), polyethylene (Ld-PE) or PVC
- Available in various colours
- The anti loss lip (F) is suitable for pre assembly
- Sizes DIN 125, DIN 433 and DIN 9021 available, D = DIN, E = ISO
- Resistant to corrosion and many chemicals
- Also available in assortment box 019
- Check our extensive ranges of nylon or metal screws and nuts

- Perfect tool for fastening rivets of series 093
- Available in 10 sizes depending on rivet used
- Position 4-7 of part number correspond to push-in rivet part number
- Use tool number 112 0110 999 99 for push-in rivet 093 0110 000 02 etc.
- Secure fastening of the rivet is assured with this tool

QUICK FASTENER

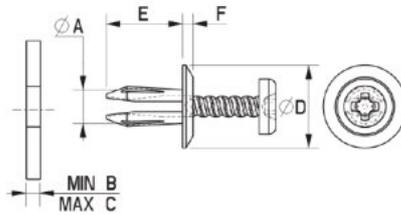

SERIES 095

- Made from nylon-6 (PA-6) (F1) and polycarbonate (F2)
- Colour: black, white
- For quick mounting and removal of panels and sheets
- Assembly by pushing pin F1 into body F2
- Removal by pulling out pin F1
- May be used more than 30,000 times

All prices are indicative. Check www.skiffy.com for our current prices and more information about materials and colours.

- Made from POM
- Colour: natural, black
- Each type is suitable for multiple sheet thicknesses
- Connecting, mounting and fastening is feasible without tools
- Also available in assortment box (group 019)

- Made from nylon-66 (PA-66)
- Colour: natural, black
- Reliable fitting in bore holes with larger tolerances
- Suitable for blind holes or holes with or without screw threads
- Two models available: F1 = removable, F2 = not removable
- Fast assembly, no tools required

COVER CAP

SERIES 006-K2

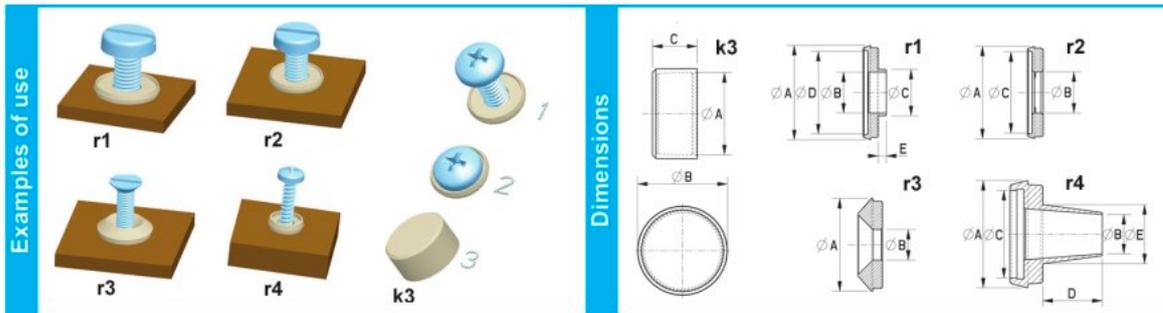

- Made from nylon-6 (PA-6)
- Available in various colours. see column Col
- For decorative and protective purposes
- Also available in assortment box 019
- Check our extensive range of nylon or metal screws and nuts
- Codes r_ are (mounting) washers. codes k_ are caps

All prices are indicative. Check www.skiffy.com for our current prices and more information about materials and colours.

COVER CAP SERIES 006-K5

- Made from polyethylene (Hd-PE)
- Available in various colours. see column Col
- For decorative and protective purposes
- Also available in assortment box 019
- Check our extensive range of nylon or metal screws and nuts
- Codes r_ are (mounting) washers. codes k_ are caps

INSULATION SLEEVE SERIES 312

- Made from nylon-6 (PA-6) and glass fibre compound
- Colour: black
- Essential to connections between incompatible metals
- Guarantees electrical insulation
- Withstands high load mechanical tension
- Check our extensive ranges of nylon or metal screws and nuts

INSULATION SLEEVE SERIES 083

- Made from nylon-6 (PA-6)
- Colour: natural
- Frequently applied in electro technical environments
- Prevents electrical corrosion with counter sunk head screws
- Compulsory by law in many countries
- Also available in assortment box (group 019)
- Check our extensive ranges of nylon or metal screws and nuts

SHRINK TUBING, FLAME RETARDANT

SERIES 174

- Made from crosslinked polyolefin
- Colour: black, transparant (not flame retardant), red, blue
- Shrink ratio: 2:1
- Operating temperature: -55°C to +125°C
- Min. shrink temperature: 70°C, min. full recovery temperature: 100°C
- Dimension D is contents in meters of 1 pack
- B is the inner diameter and C the wall thickness after shrinkage

**GROMMET WITH CABLE ANCHORAGE
SERIES 284**

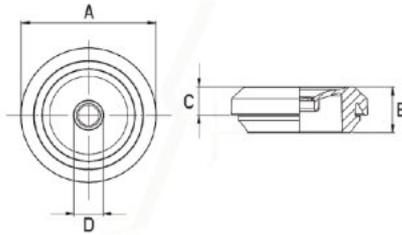

- Made from TPE and polyamide 66 - Halogen free
- Colours: white, light grey, black
- Protection class: IP67/IP65
- Self-adjusting to wall thickness and to cable diameter
- Compact, protrusion of only 5.7 mm from the housing
- F = Panel hole, E = cable diameter MIN-MAX
- Panel Thickness: 1.5 - 5mm

LOCK EDGING SADDLE

SERIES 275

- Made from nylon 6.6
- Colour: natural
- Flame resistance: UL 94 V-2
- Insertion mounting
- Inner round corners protect cables against damage
- Lock prevents cable bundles from release
- Panel Thickness: 0.6 - 2.0 (EDSL1: 0.6 - 1.0)

LOCKING MINI CLAMP SERIES 275-1

- Made from nylon 6.6
- Colour: natural
- Flame resistance: UL 94 V-0
- Snap mounting for hole \varnothing 3.5 mm
- Compact, space saving clamp
- Clamp can be opened to insert cables/ optical fibres without damages
- Panel thickness: 0.5 - 1.6 mm
(275060500002 0.8 - 2.0 mm)

- Made from nylon-66
- Colour: Natural
- Easy fixation of cables to panel
- F2 is releasable, F4 tie can be removed from panel after use
- Dimension C = Max cable bundle diameter
- D = hole size
- E = Panel thickness

All prices are indicative. Check www.skiffy.com for our current prices and more information about materials and colours.

- Made from brass, mild steel and stainless steel
- Finish: metal, zinc and nickel
- Thread hole size M2 for precise electronics connections
- Thread hole size M8 for maximal strength when fastening
- Meets the most demanding requirements needed for various uses
- Check our extensive ranges of nylon or metal screws and nuts

All prices are indicative. Check www.skiffy.com for our current prices and more information about materials and colours.

- Made from brass, mild steel and stainless steel
- Finish: zinc and nickel
- Standardized spacer for various connections
- Especially suitable for automated assemblies
- Available with flat washers and threaded nuts
- Check our extensive ranges of nylon or metal screws and nuts

SOLDERING SPACER - METAL SERIES 314-M

- Made from brass
- Finish: tin
- Designed to improve and automate fastening of metal spacers on PCB
- Low thermal inertia and tin plated finish
- Ideal to mount daughter PCBs on mother PCB
- Perfect electrical connection, suitable for EMC applications
- To be soldered manually or through a soldering wave

SELF TAPPING SPACER - METAL SERIES 315-M

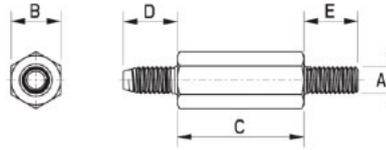

- Made from special hardened steel
- Finish: zinc or nickel
- Excellent electrical conduction by special copper / nickel casing
- No closing washers or nuts necessary because of self-tapping thread
- Very suitable for metal sheets, aluminium and nylon
- Hole diameter 2.70 mm (+0.00/- 0.05) for M3
- Hole diameter 3.6 mm (+0.00/-0.05) for M4

MATERIAL TABLE

01	Nylon-6 (PA-6)	31	Polystyrene (PS)
02	Nylon-66 (PA-66)	32	Polystyrene (PS)
03	Polyethylene (Ld-PE)	34	Polyphenylenesulfide(PPS)
04	Polyethylene (Hd-PE)	35	Nylon-6 + 25% glass fibre
05	Polyoxymethylene (POM)	36	PPA 40% GM chrome plated
07	Polyvinylchloride (PVC)	38	POM + 30% glass fibre
09	PEEK	39	Polypropylene + Thermoplastic Elastomere
11	Polypropylene (PP)	40	Polyurethane (acryl)
12	Elastomer	41	Polyurethane (rubber)
13	Elastomer (40%)+ PP (60%)	42	Polyamid 66 + C + PTFE
14	Polystyreen (PS)	43	PA66+Glassfibre+PTFE
15	Bakelite	44	Aluminium
16	Nylon-6 + 30% glass fibre	45	TPE
17	Polystyreen (PS)	50	Brass (CW614N)
18	Polyolefin (PO)	52	Automat steel (1,0737)
19	ABS	53	Stainless steel (1,4301)
20	Polyurethane (PUR)	56	Stainless steel (1,4305)
22	Polycarbonate	58	Automat steel (1,0737) nitrocarburated
26	Sealon	99	Various
28	SEBS
